

WIN A PLACE IN THE StrangerAcademy!

Are you a talented video maker? Do you want to learn new ways of telling your story in a video? Then this is your chance! Upload your best video at www.strangerfestival.com and become part of the StrangerAcademy.

StrangerAcademy

This year the StrangerAcademy opens its doors in Amsterdam from 14th to 17th October 2009.

StrangerAcademy is a place where more than a hundred young video makers from all over Europe can develop their video and storytelling skills. Experienced and inexperienced video makers take part in workshops, follow master classes and show their work to an audience of fans and

experts. And at the end of it all: the StrangerAward Show!

Win

A professional jury judges all video uploads at www.strangerfestival.com on the basis of originality and creativity. Finalists in all categories are invited to come to Amsterdam to take part in the StrangerAcademy - we pay for your travel and stay. To enter the competition, you must be

younger than 26, your video must be self-made and between 1 - 5 minutes long. There is also a monthly Audience Award (starting now!) with finalists chosen by our website visitors.

Upload your video now on www.strangerfestival.com!

StrangerFestival is an initiative of the European Cultural Foundation (ECF).
