105	Wicklow	Rathdrum	13246G	Moneystown N.S.	Primary	Modular	Extension

<sup>1</sup>Project rollout will include a strong focus on maximising opportunities for value for money to be achieved. As part of this, there will be a strong emphasis on maximising capacity of accommodation and ensuring that enrolment policies are focused on catering for local needs for both mainstream and special class requirements

Additional projects to cater for Annual September needs that are prioritised by the Department over the course of 2026 will be added to this list within the parameters of NDP funding. Such projects will primarily focus on SEN and for delivery under the Modular Accommodation Programme.

---

\*A new school building refers to the construction of a school building for a school who are without permanent accommodation or the replacement of an existing school whose infrastructure is no longer adequate due to space limitations, aging buildings, or increased enrolment
