Re: Reimbursement of expenses for [REDACTED] following Narcolepsy diagnosis

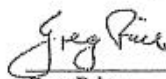

Dear [REDACTED]

I refer to your claim for the reimbursement of expenses associated with [REDACTED]'s diagnosis with Narcolepsy following Pandemrix vaccination. These claims have been in the past handled by the HSE Advocacy Unit.

Given that [REDACTED] as is her right, has now instituted High Court Proceedings against the HSE and the Minister for Health, etc., this matter will be handled on our behalf by the State Claims Agency. In those circumstances, we are advised by the State Claims Agency that we will not be able to make any payments in respect of any ongoing or future expenses incurred by you associated with [REDACTED]'s diagnosis with Narcolepsy. We will forward receipts submitted by you to the State Claims Agency.

We will continue to ensure, however, that [REDACTED] is entitled to those health benefits that have been allocated to her in the past.

Yours sincerely,

Greg Price
Director of Advocacy
